Of wheat fields there were seven entries, all of the Lost Nation variety. Lyman E. Smith, Brunswick, enters 3 acres and 38 rods. The soil is mostly clayey loam underlaid with blue clay, had been in grass for eight years and was very much worn out. Plowed last fall 7 inches deep. This spring when dry enough to work it was harrowed twice with a Coulter harrow, and 200 bushels of leached ashes applied to the harrowed twice with a Coulter harrow, and 200 bushels of leached ashes applied to the acre. Sowed two bushels of seed to the acre and harrowed in with same harrow. Last fall a part of this field was underdrained and the result was very satisfactory, the wheat being much heavier in the vicinity of the drain. The yield of this field was 81 bushels or 25 bushels and 5 quarts per acre.

Congress.

The first session of the forty-sixth Congress ended its session last week. It was the first session, although an extra session was made necessary last year. The seasion has lasted six months and the most of the time has been occupied in preventing rather than enacting legislation. Usually this would be a commendable fault, for it is undeniable that "the world is governed too much." There have been, however many important matters neglected by this session of Congress which deserve censure, and its inefficiency has been conparty is to be held answerable for its nonaction, for the partisans of each party have striven to do nothing, for fear if they did ander H. Stephens upon the one side and Senator Blaine upon the other, both declared, in Congress, that this Congress had been indolent and inefficient.

STANDARD THE

MODEL BUCKEYE!

Everywhere Recognized as the Standard Mower.

Believing that simplicity is the most desirable and important feature of every kind of machinery, our aim in continued improvements has been each year to simplify the Buckeye, and get it to do the work in a more simple manner, rather than puzzle and confound the farmer with some new mystery of gearing, which he cannot understand, and consequently cannot repair.

We are able to place the New Model Buckeye upon the market for 1880, in the most simple form ever attained in a mowing machine. Every part of its gearing is so simple that the most unakilled may understand it, and know how to keep it in order. There is no practical work in the hay field to be done with a mowing machine, that the New Model Buckeye will not do, while it contains fewer pieces, and will outlast any other mowing machine made. It is honestly and thoroughly made. Every machine is tested before leaving the shop. It is built to stand the wear and tear of hard usage and may be safely left to the ordinary farm helper.

. The NEW MODEL BUCKEYE is the Lightest in Draft of All Mowing Machines.

Our agents cover all parts of New England, and will be glad to show the New Model Buckeye, either in the field, or at their places of business. RICHARDSON MANUFACTURING COMPANY,

WONDERFUL POPULARITY OF THE RENOWNED MEDICINE. The Greatest Curative Success of the

Age-A Voice from the People.

No medicine introduced to the public has No medicine introduced to the public has ever met with the success accorded to Hop Bitters. It stands to-day the best known curative article in the world. Its marvellous renown is not due to the advertising it has received. It is famous by reason of its inherent virtues. It does all that is claimed for it. It is the most powerful, speedy and effective agent known for the building up of debilitated systems. The following witnesses are offered to prove this:

What It Did For An Old Lady. Coshocton Station, N. Y., Dec. 28, 1878. Coshocton Stacion, N. Y., Dec. 28, 1878.

Gents—A number of people had been using your Bitters here, and with marked effect. In fact, one case, a lady of over seventy years, had been sick for years, and for the past ten years I have known her, she has not been able to be around half the time. About six months ago she got so feeble she was helptess. Her old remedies, or physicians, being of no avail, I sent to Deposit, forty-five miles, and got a bottle of Hop Bitters. It had such a very beneficial effect on her that one bottle improved her so she was able to dress herself and walk about the house. When she had taken a second bottle she was When she had taken a second bottle she was able to take careof her own room and walk out to her neighbor's, and has improved all the time since. My wife and children also have derived great benefit from their use. W. B. HATHAWAY,

Gents—Whoever you are, I don't know; but I thank the Lord and feel grateful to you, to know that in this world of adulterated medicines there is one compound that proves and does all it advertises to do, and more. Four years ago I had a slight shock of palsy, which unnerved me to such an extent that the least excitement would make me shake like the ague. Last May I was induced to try Hop Bitters. I used one bottle, but did not see any change; another did so change my nerves that they are now as steady as they ever were. It used to take both hands to write, but now my right hand writes this. Duty to Others. Chambersburg, July 25, 1879. This is to let the people know that I, Anna Maria Krider, wife of Tobias Krider, am now past seventy-four years of age. My health has been very bad for some years past. I was troubled with weakness, bad cough, dyspepsia, great debility and constipation of the bowels. I was so miserable I rested by MALT BITTERS. This original and incomparable food medicine is rich in nourishment and strong again. My bowels are regular, my appetite good, and cough all gone. I feel so well that I think it my duty to let the people know, as so many knew how bad I was, what the medicine has done for me, so they can cure themselves with it.

many that need such a medicine.

D. BOYCE.

Monroe, Mich., Sept. 25, 1878. Sire:—I have been taking Hop Bitters for inflammation of kidneys and bladder; it has done for me what four doctors failed to do. The effect of the bitters seemed like magic to me.

W. L. CARTER. to me.

If you have a sick friend whose life is a burden, one bottle of Hop Bitters may restore that friend to perfect health and happiness. Will you see that that friend has a bottle at once.

Bradford, Pa., May 8, 1878. It has cured me of several diseases, such as nervousness, sickness at the stomach, month-ly troubles, &c. I have not seen a sick day of my neighbors use them.

MBS. FANNIE GREEN.

Eunderton, Pa., Nov. 6, 1879, Dear Sir-I have used four bottles of your Hop Bitters, and they have done me good and cured me. I had diarrhea, dyspepsia, and chronic inflammation of the bowels, and was giddy in the head and nervous.

FRED. THUNSBERGER.

Paulding, Ohio, Feb. 2, 1:80. Hop Birrers Co.: Have used two bottles of Hop Bitters in my family, and think them the best ever

GEO. W. POTTER, Banker Immense Sale. Evansville, Wis., June 24, 1879. Gentlemen:-No Bitters have had one

half the sale here and given such universal satisfaction as your Hop Bitters have. We take pleasure in speaking for their welfare, as every one who tries them is well satisfied with the results. Several such remarkable cures have been made with them here that there are a number of earnest workers in the Hop Bitters cause. One person gained eleven pounds from taking only a few bottles.

Moral Turpitude.

Blame attaches to a jury of intelligent men Blame attaches to a jury of intelligent men when they condemn a man for crime whose moral nature has been perverted by indigestion, diseased liver and kidneys. A thoughful judge may well consider whether society would not be better served by ordering a bottle of Hop Bitters for the unfortunate in the dock, instead of years of penal servitude.

Colorless and Cold.

A young girl deeply regretted that she was so colorless and cold. Her face was too white and her hands and feet felt as though the blood did not circulate. After one bottle of Hop Bitters had been taken she was the rosiest and healthlest girl in the village, with a vivacity and cheerfulness of mind gratifying to her friends.

Gents-I have been taking your Hop Bitters and received great help from them. I will give you my name as one of the cured * MRS. MARY F. STARR.

Springfield, Ill., Sept. 3, 1879.
